NC IOM Healthcare Safety Net Task Force

Acknowledgements

The work of this Task Force would have been impossible without the generous financial support of The Kate B. Reynolds Charitable Trust. Not only did they contribute to the work of the Task Force, but more importantly, they have provided a source of ongoing support to safety net organizations throughout the state that has enabled these organizations to provide services to the uninsured. There would be far fewer organizations available to help the uninsured and other vulnerable populations without the help of The Kate B. Reynolds Charitable Trust, The Duke Endowment, the NC Health and Wellness Trust Fund, Blue Cross Blue Shield of NC Foundation, and many other charitable and faith-based organizations across the state.

The Task Force extends special recognition to its two Co-Chairs: Carmen Hooker Odom, Secretary, NC Department of Health and Human Services, and Sherwood Smith, Jr., Chairman Emeritus, Progress Energy, Inc., who helped set the agenda and gave overall direction to the work of the Task Force. The Task Force's work and clarity of vision would not have been possible without their leadership. The primary staff direction for the work of the Task Force was the responsibility of Pam Silberman, JD, DrPH, Vice-President; and Gordon H. DeFriese, PhD, President and CEO of the NC Institute of Medicine. They were primarily responsible for leading the overall work of the Task Force and in writing the final Task Force report. Kristen Dubay, MPP, Project Director, Jamie Jenkins, MD, Research Assistant, and Kristie Weisner Thompson, MA, Assistant Vice President, of the NC Institute of Medicine assisted with the background research, writing, and editing of this report. Key staff support was also provided by Adrienne Parker, Director of Administrative Operations, and Thalia Fuller, Administrative Assistant, with the NC Institute of Medicine. Katie Gaul, MA, from the Cecil G. Sheps Center for Health Services Research at the University of North Carolina at Chapel Hill (UNC-CH), provided cartographic support.

Special thanks are also due to the members of the steering committee for helping to plan meetings, arrange speakers and presentations, obtain state-level data, and organize the workgroups: Thomas J. Bacon, DrPH, Executive Associate Dean, UNC School of Medicine & Director, NC Area Health Education Centers Program; Sonya Bruton, MPA, Executive Director, NC Community Health Center Association; Leah Devlin, DDS, MPH, State Health Director, Division of Public Health, NC Department of Health and Human Services; John H. Estes, Healthcare Consultant, NC Office of Research, Demonstrations and Rural Health Development; Dennis Harrington, Deputy Director, Division of Public Health, NC Department of Health and Human Services; Mark Holmes, PhD, Research Fellow, Cecil G. Sheps Center for Health Services Research, UNC-CH; Alan McKenzie, CEO, Buncombe County Medical Society; John Mills, CAE, Executive Director, NC Association of Free Clinics; Ben Money, MPH, Associate Director, NC Community Health Center Association; Andrea D. Radford, MHA, Primary Care Consultant, NC Office of Research, Demonstrations and Rural Health Development; Thomas C. Ricketts, III, PhD, MPH, Deputy Director, Cecil G. Sheps Center for Health Services Research, UNC-CH; Jeff Spade, MHA, CHE, Executive Director, NC Rural Health Center, NC Hospital Association; Aimee Wall, JD, MPH, Assistant Professor of Public Law and Government, School of Government/Institute of Government, UNC-CH; Torlen Wade, Director, NC Office of Research, Demonstrations and Rural Health Development, NC Department of Health and Human Services; and Tom Wroth, MD, MPH, Department of Social Medicine, UNC-CH.

The Task Force also appreciates the contributions of the graduate students in Pam Silberman's UNC Chapel Hill School of Public Health spring 2004 health policy seminar who helped contribute to the background research and writing of this report. These include: Mayra Alvarez (MHA expected May 2005); Laura Brogan (MSPH expected May 2005); Beth Cobb, MSPH; Suzanne DePalma, MPH; Sharon K. Hull, MD, MPH; Sandra Leak, MHA; Nicole Martin; Sadye Paez, MSPT; Stephanie Poley; Tausha Robertson, MS; Rebecca Slotnick, MSPH; Erin VanScoyoc, MPH;

Joan Walsh, PhD; Tom Wroth, MD, MPH; and Susan Zelt, MPH, MBA.

Finally, but most importantly, the NC Institute of Medicine extends its appreciation to the 47 members of the Task Force who gave freely of their time and expertise, to try to address this important issue. Many of the Task Force members are individuals who have spent their professional careers trying to provide needed healthcare services to underserved populations across the state; and for this, we owe them a special note of gratitude.

In addition to Task Force and steering committee members, many of whom also made presentations, the NC Institute of Medicine would like to thank the following people who gave presentations at Task Force meetings: Michael Keough, MHSA, Project Director, NC Senior Care; Catherine Roach, Pharmacist and Director, Cumberland County Medical Assistance Program (CCMAP); Mark Benton, Deputy Director for Financial Business Operations, NC Division of Medical Assistance; and Stephanie Geller, EdM, Research Director, Volunteers in Health Care.
