

Healthy NC 2020: Environmental Risks Subcommittee Meeting
Thursday, May 27, 2010

Subcommittee Members and Interested Persons Present: Doug Campbell, Sheila Higgins, Ed Norman, Laura Boothe, Julia Cavalier, Debi Nelson, Lisa Harrison

NCIOM Staff: Jennifer Hastings, Catherine Liao

Proposed Objectives

The Environmental Risks Subcommittee developed the following draft objectives:

- 1. Water**
 - a. Reduce the amount of major contaminants in surface water and watersheds
 - b. Increase the percent of the population served by community water systems with no MCL (maximum contaminant level) violations
- 2. Air**
 - a. Reduce the number of unhealthy air quality days due to ozone
- 3. Occupational Health**
 - a. Reduce mortality from work-related injuries
- 4. Other**
 - a. Reduce mercury contamination in fish

Next Steps

The NCIOM is investigating data availability for the above measures that were newly proposed in the meeting. This information will help guide the subcommittee in selecting the final three objectives, targets, and a key performance indicator for this focus area.
