Brief Overview of Health Information Exchanges

Questions for Workgroup:

- What data do you need to provide more meaningful advice?
- Should NC create its own exchange or leave it to the federal government (pros and cons of both options)?
- If NC should create an exchange, should there be one or two exchanges (for individual and small group)? Pros and cons of each?

- Who should operate the exchanges? State government, quasi-governmental? Non-profit? Pros and cons of the different options?
- Should the HBE for small groups be initially open to groups of 50-100? Pros and cons of the different approaches?
