- Aside from CCNC, what other innovative delivery system models are being tested in North Carolina?

- What are the most critical elements needed to be successful?
- What types of models would work best in North Carolina?
- How do we build on existing successes, and encourage new models that promote efficiency, quality and reduced health care costs?
- What other information or data do we need to move forward on these options?

3:45-4:00 **Public comment period**
