

Medicaid and Elder Law

Questions for the Workgroup
September 9, 2010

Reminder

- The workgroup's role is advisory in nature:
 - We want to explore what options are available to the state, and the pros and cons of these options
 - We want to consider both short-term and longer-term options (ie, we need to understand current budget constraints, but also consider what options may be more feasible in the future)

Questions to the Workgroup

- What are the potential advantages and disadvantages of the different federal options to expand home and community based services?
- What additional information or data do you need to consider these options?
- Are there ways to increase the quality and efficiency of existing home and community based services, so that we could serve more people within existing resources?
