Workgroup discussion: Other Implementation Efforts Underway

11:00-11:45

Workgroup discussion of next steps

In thinking about identifying funding opportunities for prevention and wellness programs and those communities in greatest need:

- What are the strengths North Carolina should build upon?
- How do we collaborate and coordinate responses?
- How do we make sure to get the right communities involved (i.e., greatest need and capacity to respond)?
- What are the challenges we face in implementing these health reform provisions (e.g., short time frame, etc.)?
- How should we move forward from here?
