POTENTIAL RECOMMENDATIONS FROM THE TASK FORCE

PREVENTION: How can we ensure that there are appropriate prevention programs throughout the state that are evidence based and ensure program fidelity?

PRIMARY CARE: How do we incorporate evidence-based screening, brief intervention, referral and treatment strategies into primary care practices (first point of contact)

CONTINUUM OF SERVICES: How can we ensure that there is a continuum of ASAM services for children, adolescents and adults across the state

DATA: What other data are needed for task force, community planning, service oversight
