<b>Goal</b>	Promote and contribute to the highest possible level of health for the people of North Carolina.	Provide people with, or at risk of, mental illness, developmental disabilities and substance abuse problems and their families the necessary prevention, intervention, treatment, services and supports they need.	Provides training, technical assistance, and consultation to the local staff who work in programs for families and children including Child Welfare, Family Support, Work First, Child Support, and Food and Nutrition Services.	Implement quality standards, increase access for families, and collaborate to promote enhanced service delivery of early care and education across the state.	Provide access to high quality, medically necessary health care for eligible North Carolina residents.	Every public school student will graduate from high school, globally competitive for work and postsecondary education and prepared for life in the 21st Century.	Improve early childhood outcomes by bringing together local stakeholders to improve quality of education, health services, and family supports in their communities.	North Carolina has a variety of state and local foundations that provide funding for services for children 0-5 with mental health, social, and emotional needs	North Carolina has a variety of state and local organizations that provide funding and/or services for children 0-5 with mental health, social, and emotional needs
