**Building a Better Future TOGETHER.**

# ACA and Prevention

- Promotes wellness in the workplace
- Establishes vital role of the community
- Reinforces prevention as a priority
  
- Reaffirms the principle that “the health of the individual is almost inseparable from the health of the larger community. And the health of each community and territory determines the overall health status of the Nation.”

# Population Health and Population Health

“the health outcomes of a group of individuals, including the distribution of such outcomes within the group”

...population health includes health outcomes, patterns of health determinants, and policies and interventions that link these two.
