Magellan Network Information – Commercial Population

Adequacy of Network

Magellan Standards – Distance (GEO Access)

	MD	PhD	Masters	Facility
Urban	1 provider in 10 miles	1 provider in 10 miles	1 provider in 10 miles	1 facility in 40 miles
Suburban	1 provider in 25 miles	1 provider in 25 miles	1 provider in 25 miles	1 facility in 40 miles
Rural	1 provider in 40 miles	1 provider in 40 miles	1 provider in 40 miles	1 facility in 60 miles

- *Urban, Suburban and Rural are defined by census tract information*
- *This is the minimum number of providers within the mileage distance of the member's zip codes*
- *Threshold to meet: 90% Urban and Suburban; 80% Rural*

Magellan Network Information – Commercial Population

Adequacy of Network

Magellan Standards – Density

MD	PhD	Masters	Facility
2 providers per 10,000 members	2 providers per 10,000 members	6 providers per 10,000 members	1 facility per 2000 members

- *Density is measured at county level*
- *Minimum of 10 providers / 10,000 members is based on penetration rates*
- *Must look at GEO Access (mileage) and Density together for a full picture of network adequacy*
- *GEO takes rural access into account*
- *Density is a pure ratio of member to provider without any differential scale for counties without providers*

Magellan Network Information – Commercial Population

Adequacy of Network

Mental Health and Substance Abuse Services Provided by the Network – covers all ages

- *Outpatient*
 - *Therapy – Individual, Group, Family for MH and SA*
 - *Medication Management*
 - *Outpatient Detox*
 - *rTMS – office setting*
 - *Telehealth*
 - *Outpatient ECT - facility setting*
- *Facility Based Psychiatric*
 - *Acute Inpatient, Residential, 23 Hour Observation, PHP, IOP, ECT, Eating Disorders*
- *Facility Based Substance Abuse*
 - *Detox, Rehab following Detox, PHP, IOP*
 - *Linkages to community based services*

Magellan Network Information – Commercial Population Adequacy of Network

Provider Composition of Magellan Network - covers all ages

- *Outpatient*
 - *Child and Adolescent, and Adult Psychiatrists – MD's and DO's*
 - *Addictionologists – MD's and DO's*
 - *Advance Practice Nurses*
 - *Physician Assistants*
 - *RN- Clinical Nurse Specialists*
 - *Psychologists (HSP)*
 - *Masters Therapists Licensed at the Independent Practice Level*

Magellan Network Information – Commercial Population Adequacy of Network

Facility Composition of Magellan Network – covers all ages as appropriate

- *Acute Psychiatric Facilities*
 - *Will have Acute Inpatient and may have 23 Hour Observation PHP, IOP levels of care*
- *Substance Abuse Facilities*
 - *Will have Detox, Rehab, and may have PHP, IOP levels of care*
- *Residential Facilities for longer term care*
